Re: Patent Application Docket ibar04/002, Filing receipt 10/759,769

Sir,

I refer to the above referenced patent application, for which I enclose a photocopy of the return postcard that we received from you after the filing.

The receipt is dated 1/17/04 and we have not yet received any other documentation concerning the application, and in particular a license for foreign filings. I am concerned because other filings made around that time on similar subject matter have all received such a license. In addition, this filing does not appear under my filings in the PAIR system. All of my other applications do appear there.

I wonder if you could check for me that this application is being processed normally and let me know if I need to refile the original.

Thank you for your attention in this matter.

Yours Truly

Laurence T. Pearson
